May 14, 2018

Greetings,

Thank you for your willingness to function as your institution's contact for the ARUCC Groningen & Student Mobility Project.

Spring Sessions

To acclimatize you to the Project, the ARUCC Groningen and Student Mobility Steering Committee is holding virtual information sessions in May and June in the lead up to the ARUCC biennial and PCCAT conferences.

Please register for the sessions scheduled thus far at the following URL: https://form.simplesurvey.com/f/l/SessionRegistrationForm1

We are still scheduling the various speakers and will alert you as other dates are confirmed.

These sessions serve the following objectives:

- To update you and, through you, your community, regarding the ARUCC Groningen & Student Mobility Project.
- To ensure you are aware of current activities and innovations in the world of international data exchange.
- To capture your advice on the Project's business requirements as we work towards developing an Expression of Interest for the national data exchange solution.

Space is limited; therefore, each session will be capped at 90 people. However, if one person from your institution registers and you use one computer for your group, more could be accommodated. Participation will be first come, first serve.

These sessions will be taped and posted to the ARUCC Groningen Project Website.

As most of the presenters are from outside of Canada, the sessions will be conducted in English. We are happy to set up a follow up session in French with a smaller group of people, if a French language overview session is needed.

June Conferences

We invite you to participate in additional sessions to engage with the project at the following conferences:

- June CanHEIT conference – presenters = Steering Representatives Brian Stewart, CIO, University of Alberta; Lori MacMullen, Executive Director CUCCIO
- June ARUCC and PCCAT conferences – presenters = Charmaine Hack, President, ARUCC; Romesh Vadivel, Vice President ARUCC; Andrew Arida, Past-President, ARUCC

We will update you on further opportunities for participation as the project moves forward into summer 2018.

If you have questions about the above sessions, contact Joanne Duklas, our Project Consulting Lead, at joanne@duklascornerstone.ca

Sincerely,

Charmaine Hack
